

# SYMBIOSIS CENTRE FOR HEALTH SKILLS (SCHS)

A Constituent of Symbiosis International (Deemed University)

OFFERS YOU AN OPPORTUNITY TO UNDERGO

## SIMULATION BASED - CLINICAL ESSENTIALS COURSE : PART I & II

Simulation acts as an effective platform for novice and seasoned healthcare professionals to share learners' experiences and improve the future of healthcare in India and globally thus ensuring that simulation becomes a vital tool and an important pedagogical approach for preparing healthcare professionals in providing patient care in a collaborative team environment.

This course is a two-day event, incorporating Simulation as a pedagogy of instruction and assessment in the training of all healthcare professionals, across all cadres, both in clinical as well as non-clinical domains through an inter-professional approach. It will help create better professionals who are less likely to commit errors in patient care.

**Course Director - Dr Anand Hinduja**
